ENTOMOLOGIE.

ENTOMOLOGIE,

OU

HISTOIRE NATURELLE

DES INSECTES,

Avec leurs caractères génériques et spécifiques, leur description, leur synonymie, et leur figure enluminée.

PAR A. G. OLIVIER,

Docteur en Médecine; membre de l'Institut de France; de la Société d'Agriculture du département de la Seine, etc.

COLÉOPTÈRES.

TOME HUITIÈME.

PLANCHES.—GENRES 66 à 100.

A PARIS,

Chez DESRAY, Libraire, rue Hautefeuille, n° 4, près celle Saint-André-des-Arcs.

M DCCC VIII.

Turrigeros Elephantorum miramur humeros,
Taurorumque colla, et truces in sublime jactus,
Tigrium rapinas, Leonum jubas, cùm rerum natura
Nusquam magis, quàm in minimis, tota sit.
Quapropter, quæso, ne hæc legentes, quoniam ex his
Spernunt multa, etiam relata fastidio damnent.
Cùm in rerum naturâ nil possit videri supervacaneum.
